

What If Payroll & HR Software Could Be Better?

The Payroll and HR profession is often caught in a web of poor tools and limited functionality. Unlike sales, finance and other departments, payroll and HR software is outdated, clunky and forces you to be stuck with frustrating issues.

COMMON ISSUES WITH MOST OUTSOURCED PAYROLL AND HR SOLUTIONS:

- Inadequate reporting capabilities
- Insufficient data collection and tools for ACA compliance
- Too many manual processes
- Required to store paper files
- Cumbersome data entry
- Aging, multiple platform systems
- Blackout periods
- No point-in-time reporting
- Limited historical data available (purging/archiving data)
- Service issues

With Paylocity, you can be more efficient and effective with powerful cloud software.

TAKE PAYROLL AND HR FROM THE BACKROOM TO THE BOARDROOM.
